

Understanding Security

Pearson's Chancery SMS Parent Connect uses a password-protected site. No one can see the password you choose.

Information transferred between your computer, or the school's computer, and the Chancery SMS server cannot be read or changed while in transit. Only you and your school can view your information.

Beeville ISD has implemented policies to protect the privacy of everyone that uses Chancery SMS.

Ensuring your security:

It is very important to follow the instructions for setting up your account. Be sure that you do not share your password with others.

Password specifications:

Type a password that is easy to remember and difficult for others to guess.

You should type between 8 and 15 characters and contain no spaces.

If you cannot remember your password, click Have you forgotten your password? To receive a password, you must have already entered an email address in Parent Connect.

Parent Expectations:

Chancery SMS Parent Connect is a new way for the teachers at Beeville ISD to communicate with parents. Like any new program, we will continue to learn new ways to improve this communication system.

Parents can expect:

- Teachers will enter grades throughout a six weeks period.
- Some teachers may actively use all of the tools associated with Parent Connect. This is **not** required.
- All teachers and departments give a different numbers and types of assignments.
- Assignments are weighted differently within a class and within different departments.
- If you have a question about a grade or assignment, please talk with your child. He/she is your best source for information. If the student is struggling with a concept, he/she is encouraged to attend tutoring.
- Progress reports and report cards will continue to be sent home with the students.
- Technical issues within Chancery SMS occur that are out of the control of BISD. We appreciate your understanding during these times.
